

Discord Music Bot Setup Guide

Phase 1: Discord Developer Portal

1. Visit the [Discord Developer Portal](#).
2. Create a new application and go to the "Bot" tab.
3. Enable "Message Content Intent".
4. Copy your Token and keep it safe.
5. Invite the bot using the OAuth2 URL Generator.

Phase 2: Local Installation

1. Ensure Python 3.8+ and FFmpeg are installed.
2. Clone this repository.
3. Run ``pip install -r requirements.txt``.
4. Create a ``.env`` file with ``DISCORD_TOKEN=your_token``.

Phase 3: Running the Bot

1. Execute ``python bot.py`` in your terminal.
2. Use ``!join``, ``!play [url]``, and ``!leave`` in your server.
